

FAMAX QC SYSTEM – IT ADMIN EDITION

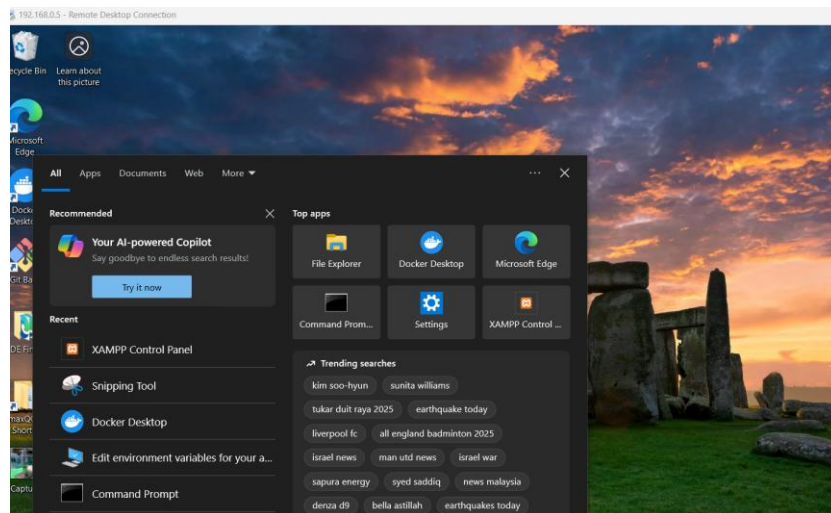

1. For IT Admin, if the system down then you must reactivate it. So the first step is remote into server 192.168.0.5.
2. Then open DOCKER DESKTOP.
3. After that at “Container” Menu, make sure the application is running if not you can click the play button at the action column.

4. Also then click on the word “Supabase” as rounded on the image above.
5. Some of the Supabase functionality might have not started properly, so click start button on by one to start it. It might take some time. For example image below show a function is not start properly. Then click the start button.

6. Wait until all started the open the command prompt.

7. Then run command : `cd C:\Users\Acer\IPQC_Project\FamaxQCSys`

```
Windows PowerShell
Copyright (C) Microsoft Corporation. All rights reserved.

Try the new cross-platform PowerShell https://aka.ms/pscore6

PS C:\Users\Acer> cd C:\Users\Acer\IPQC_Project\FamaxQCSys
PS C:\Users\Acer\IPQC_Project\FamaxQCSys>
```

8. Then run this code: `node server.js`

```
Administrator: Windows PowerShell
Copyright (C) Microsoft Corporation. All rights reserved.

Try the new cross-platform PowerShell https://aka.ms/pscore6

PS C:\Windows\system32> cd C:\Users\Acer\IPQC_Project\FamaxQCSys
PS C:\Users\Acer\IPQC_Project\FamaxQCSys> node server.js
Server is running at http://192.168.0.5/FamaxQCSys
```

9. Now you can try access <http://192.168.0.5/FamaxQCSysstem/> .
